## PAY THE PAST

## BUILD THE FUTURE

Our desire is to invest in the next generation. However, with our current debt situation, much of the money that could be used for our children and youth ministries goes straight toward paying interest. We hope to change these circumstances by running a three year capital campaign, All In, to pay off the past and build the future.

### THE NUMBERS

Right now, we owe \$973K on our building and pay \$9100 per month; that's a fifth of our total operating budget. \$4200 of that cost is paying off interest. We want to bring this to an end and do not want to take on any new debt.

### THE MOTIVATION

The love of God and the gospel imperative to reach our neighbors for Christ. As we reach students, we reach their parents. Our desire to create a welcoming, loving, engaging church home here to see so many more students, and children and their families find Christ!

### THE PLAN

We want to start a campaign where every dollar that comes in is split 60/40, so that with every \$100, 60 dollars would go to paying off our debt and 40 dollars would be placed in a fund to pay for our upcoming capital improvements.

### THE VISION

We hope to build a dedicated children's and youth wing that would be clean, creative, and fun, dedicated to their use. We also hope to redesign our lighting, welcome area, and coffee bar to make our church more inviting.
